## IMPORTANT NOTICE!

There were not enough people at our January 28th Membership Meeting to complete the vote for our Water Pipe Infrastructure Vote! This means a Ballot Vote must take place in order for us to accept the funds needed for a new water system to put in. We cannot continue to bleed our funds dry making emergency repairs to the 40+ year old system we are currently running. If our membership does not vote we will be running our funds dry with the expenses of maintaining the current broken system! Please take responsibility as a member to be informed and vote on this very important financial issue for your community! Ballot Vote will be conducted this week to be returned by February 15th!
